ONLINE LOCAL DIRECTORY

We have cracked the online visibility code and we are giving it away FREE of charge. That is the good news of our company. Unlike private social media sites like Facebook and Instagram our media gets listed right on the front page of Google.

We believe EVERYONE has a story to tell. Each and every business has a story that they want to tell to the people. You're website cannot just be about opening hours, and prices. The more you stand out and the more unique you are the better off we can serve you. Our business model came from a very simple premise. It's all about you and you control the direction of your company. The same thought should go into your online communication and that is why we are here to be of assistance.

All we need from you is just a few things to get started.

1. PICTURES – When you send us your pictures, (we recommend 4-6 to get started) we will put them into a unique web page that gets views. You can send them to us through email.... Or phone. Or if you want we can just grab them right off of your Facebook page.

2. TELL US YOUR STORY – If you can send us a simple paragraph about your business in Word format we can help put your page together. This is important that you type it out and not send us a JPEG with words on it. The simpler you can make it for us the better.

We get a lot of requests and are experiencing heavy volume. So it is much better for us to get TEXT descriptions of your business. We are not accepting printed brochures with your business information on it. This will help move the process along much faster.

The more descriptive you are the better it is for both of us. From here we will match you up with businesses who can refer you online traffic. Best of all this match up will benefit you both when someone Google's your business in an online search.

So for example lets say someone is looking for automotive repair online. They may not be looking for tires or oil change places but they will come up too with our technology. Since these are local businesses this is a real win-win for both of them. This is all done without spending money on daily ads on social media. This even works for businesses who don't have a good optimized website!

GET NEW CONNECTIONS TODAY !!!

NOTE:

As of this writing doing simple posts on Instagram and Facebook are not productive. In fact, Facebook now owns Instagram and you may have noticed that attracting new followers on both platforms has dropped significantly. It is very hard to attract new people without spending money. You will also notice that anything you post on either platform has zero visibility on Google.

At the end of your business day you want to create new relationships. In this age of pandemic hysteria meeting with a group for **BNI, Meetup, Chamber of Commerce events just aren't feasible.** In order to keep everyone safe we have developed a new strategy to keep everyone connected.

You will like the **FREE VERSION.** But for those who need more exposure there is a paid version. This allows your web presence to reach more cities, more influence, and more connections. Keep in mind that these are not just leads we pulled off a scrape bot but people we actually know in our database. You will be on a first name basis with these professionals. We screen everybody and make sure that you are going to be dealing with real industry people.

You can send your content to us the following ways.

MichiganLocalSearch@Gmail.com

Or

You can send pictures via messenger to:

248-277-6141

SUPER - CONNECTOR BUSINESS

We would like it if all written communication would be sent to our email address. This keeps the communication simple and direct and that way we won't miss out on any requests. We do have a podcast, newsletter and downloadable Ebooks that will help answer any questions you may have.

We look forward to working with you and expect great things. This is truly a trying time and we are all in this together.

Keep Strong,

Best,

Ted Cantu
