IMPORTANT THINGS TO KNOW

50% of All Mobile Web Traffic Is Video Related!

70% of All People Watch Videos Every Week

GET THE RIGHT WORDPRESS

There are different types of Wordpress out there. Get the software version for your web-sites and install it in your C Panel. It is very GOOGLE friendly and your site will pop up in more places online.

TWITTER

Boost your Tweets with users who have 2,500 - 25,000 followers to grow your own followers.

Check your Twitter analytics to find hot markets and interested parties.

GOOGLE MOBILE FRIENDLY

Your website must be MOBILE FRIENDLY for Google's new algorithm. Did you know you can use your existing website and build a frame around it with the right keywords and get more reach?

- * Reach more prospects
- * Reach more targeted clients
- * Get into more cities

SOCIAL MEDIA CODE

Did you know there is special code in social media that needs to go into your web pages? This serves as a link to your website and will help your online rankings.
